STATE WATER RESOURCES CONTROL BOARD

*Raymond Wash*  
Chief, Division of Water Rights

This license is subject to the agreement dated June 28, 1979 between licensee and Malcolm Brown and Annie Brown, to the extent such agreement covers matters within the Board's jurisdiction.

The quantity of water diverted under this license is subject to modification by the State Water Resources Control Board if, after notice to the licensee and an opportunity for hearing, the Board finds that such modification is necessary to meet water quality objectives in water quality control plans which have been or hereafter may be established or modified pursuant to Division 7 of the Water Code. No action will be taken pursuant to this paragraph unless the Board finds that (1) adequate waste discharge requirements have been prescribed and are in effect with respect to all waste discharges which have any substantial effect upon water quality in the area involved, and (2) the water quality objectives cannot be achieved solely through the control of waste discharges.

This license is subject to the continuing authority of the State Water Resources Control Board to issue any appropriate order to insure that the appropriation of water for frost protection under the license does not result in waste, unreasonable use, unreasonable method of use, or unreasonable method of diversion of water. Action by the Board will be taken only after notice to interested parties and opportunity for hearing.
